WHY INVEST IN CANADIAN NORTH RESOURCES INC.

TEAM

Experienced, seasoned, and dedicated.

ASSET

Large nickel, nickel, cobalt (base metal), palladium, platinum, rhodium (PGM) project in Canada.

100% ownership of contiguous 96.9km² mining leases.

C\$150+ million expenditures in exploration and metallurgical tests.

POTENTIAL

High-potential PGM and Cu-Ni-Co discoveries over >15 km of target zones along mineralized horizon.

Moving on to test-drilling, grid-drilling and resource modeling.

Metallurgical tests

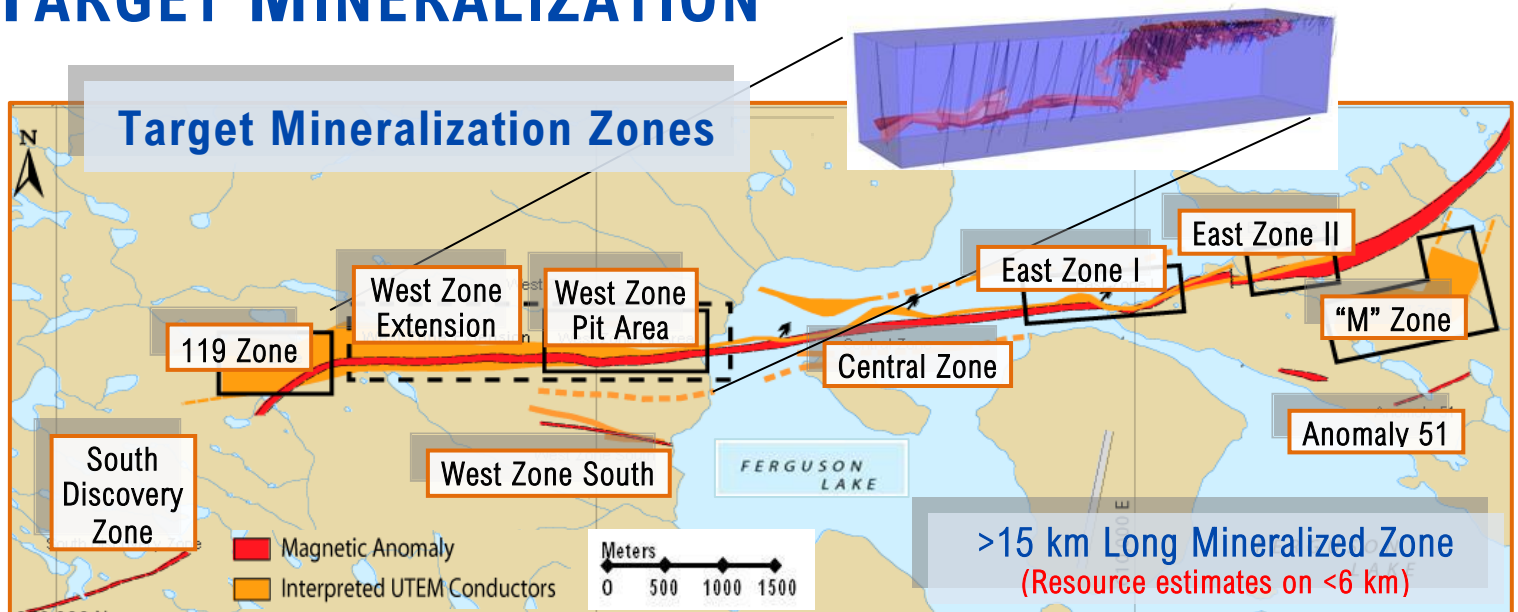

FINANCE

Strong shareholder support.

Well funded.
